

Yehuda Harush -CV

.B.Sc. student , software engineer

Email address: yehudha2@gmail.com | 053-3379492 | Yavne | [Linkedin](#)

Introduction

Fourth-year B.Sc. Software Engineering student at SCE, with hands-on experience in technical troubleshooting. Quick learner who adapts to new technologies and methodologies, seeking to contribute to challenging projects within the tech industry.

Technologies and skills:

Programming Languages: C | C++ | C# | Java | Python | SQL

Web Technologies: CSS | HTML | JavaScript | React | Node.js

Tools and Methodologies: Git | Agile | Data Structures | OOP | Design Patterns | Debugging | Automation Testing

Education:

B.Sc. in Software Engineering – SCE College (2021–2025)

High School- Advanced Physics and Mathematics, providing a solid analytical skill set.

Work Experience:

2017-2020 – Dsa System - Applied analytical problem-solving skills while working at a reputable cellphone and computer shop, addressing and resolving diverse technical issues for customers.

Military Service:

2020-2021 - I served in a combat role for four months before injuring my back, which required surgery. I then managed the Givati Brigade's computer system for six months, operated and maintained IT systems, troubleshooting software/hardware, and performing preventive maintenance. After my surgery, the army ended my service due to the extended recovery time needed.

Languages:

Hebrew - native language, English - fluent writing, speaking and reading.
