

Yehuda Harush

.B.Sc. student , software engineer

Email address: yehudha2@gmail.com | 053-3379492 | Yavne

Introduction

- Bachelor's degree 3rd student in software engineering, SCE college.
- Seeking opportunities to contribute my skills and passion for software engineering to real-world projects and challenges.

LinkedIn profile: [Click here](#)

Technologies and skills:

Programming Languages: C | C++ | Java | Python

Web Technologies: CSS | HTML

education:

High School – Attained advanced proficiency in Physics and Mathematics during high school, showcasing a solid foundation in analytical and quantitative skills.

2021 - 2025 - B.Sc. bachelor's degree in software engineering, SCE college.

Work Experience:

2017-2020 – Dsa System - Applied analytical problem-solving skills while working at a reputable cellphone and computer shop, addressing and resolving diverse technical issues for customers.

Military Service:

2020-2021 -

I served in the military in a combat role for four months, during which I unfortunately sustained a back injury necessitating surgery. Subsequently, for the next six months, I transitioned to a different role. In this capacity, I assumed responsibility for the computer system of the Givati Brigade. All complaints and requests were directed to me, and I effectively addressed and resolved them during this period. Following the six-month period overseeing the computer system, I underwent the necessary surgery for my back injury. The decision to conclude my military service was made by the army due to the extended recovery time required.

Languages:

Hebrew - native language, English - fluent writing, speaking and reading.
